# Newton Park Butterfly Garden

This garden area has been created by the Friends of Newton Park with a grant from the Big Lottery's Breathing Places Grant. The garden has been designed to create 4 different habitats to attract a range of butterflies, moths and bees by planting a selection of different plants, some of which are shown below.

## Woodland Garden

Comma

Green-veined White

Bluebottle

Bumble Bee

Foxglove

Nettle

Hawthorn

## Meadow

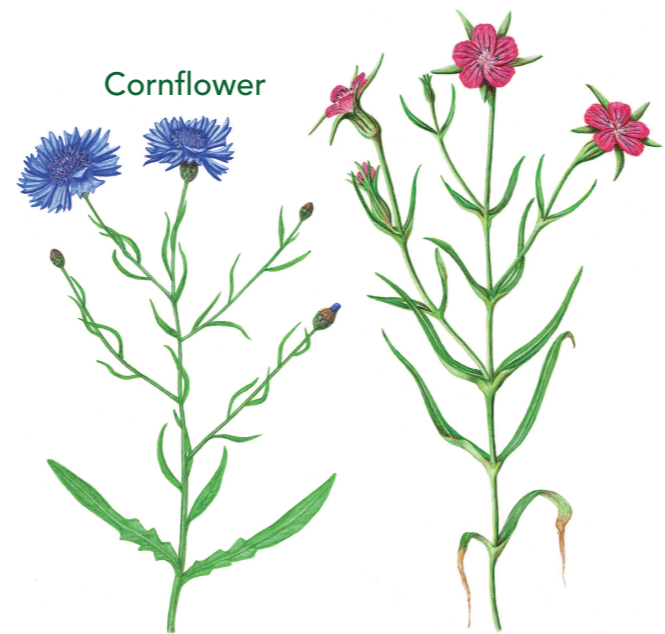

Orange Tip

Painted Lady

Corn Cockle

Cornflower

## Herb Garden

Common Blue

Small Tortoiseshell

Wasp

Hoverfly

Ladybird

Bumble Bee

## Night Garden

Hummingbird Hawk

Bat

Daddy Longlegs

Garden Spider

Evening Primrose

Red Poppy

## Hedges

Even the hedge around the garden is attractive to insects with holly for the holly blue butterfly and privet for the large privet hawk moth. **How many different insects can you see?**

Holly
